OBJECTIVE

I have worked at Wolf Solutions for 1 year and 5 months. During this time, I have mostly more than 10 months working with Nodejs, and 2 months more working with Javascript, Html Css Ajax, and Jquery. For the remaining 5 months I work mainly with Php and Laravel. For now, I'm looking forward to continuing my career development with a Fullstack Laravel position or specializing in Backend NodeJS and NestJS. I also don't mind learning a new programming language if required. I have the ability to work under high pressure, ensuring work progress. Ability to self-study and explore with a high sense of responsibility. In the future, I want to become a Fullstack developer and DevOps master
EDUCATION

🎓 **INFORMATION TECHNOLOGY** // **2018 - 2022**

Hoa Sen University

+ **Major**: Software Technology
+ **GPA**: 3.25/4.0
+ **Degree classification**: Good
